

To Honorable _____

Mr. William B. Brock was the **Equal Employment Opportunity Coordinator** recruited by Volkswagen of America, Inc. in July 1977, to ease racial tensions and establish effective change between VW, the black community and government agencies in the late 70's and early 80's.

As the most prominent black executive at Volkswagen of America, Mr. Brock was proficient in his field of expertise. Only hours after he'd joined the \$70 Million dollar class action discrimination lawsuit against the automaker, where he himself had the bulk of the damaging information against the company. It was alleged that Mr. Brock shot himself. However, experts disagree with his death being labeled a suicide. Evidence strongly indicates Mr. Brock was murdered and great efforts are being invested in covering it up. You may already be familiar with the history. If not, please visit: www.justiceforwilliambrock.com.

We seek to restore Mr. Brock's name. He was a prominent black executive at Volkswagen, and an admirable, productive member of society and was a man who made huge contributions to the position he was recruited to perform. There is strong evidence that indicates Mr. Brock was murdered; ***He did not commit suicide!***

We are asking you to lift your voice on behalf of Mr. William B. Brock. Also, please encourage the U.S. Justice Department to investigate this case and expose those who are truly responsible for his murder and cover up.

Thank you,
