

To The Honorable _____ On January 08, 1983 Mr. William B. Brock, the Most Prominent Minority Executive with Volkswagen of America, Inc. in New Stanton, Pa. was murdered and his death inexplicably ruled a suicide by The Washington County, PA. Coroner's office, without conducting a required coroner's inquiry. Despite an overwhelming preponderance of obvious evidence to the contrary. Mr. Brock was coincidentally murdered only a few hours after joining a \$70 Million Dollar Class Action Discrimination Lawsuit against the automaker, wherein Mr. Brock himself possessed the bulk of the damaging information. He, his family and colleagues at the plant received a plethora of death threats. Most importantly his demise was a scare tactic that apparently worked like a charm.

Mr. Brock was recruited by Volkswagen in July 1977 as The Equal Opportunity Coordinator in an effort to ease the existing racial tension at the New Stanton, Pa. Plant. He was accredited for a 10% minority representation on the VW workforce, a screeching halt to public outcries and demonstrations against the former plant in New Stanton, Pa., by the press, the black community, and government agencies. Numerous media reports, including the New York Times, reported that Mr. Brock committed "suicide," however, all of these reports failed to mention the fact that Mr. Brock was **LEFT-HANDED**, shot in the back of the **RIGHT** side of his head and no inquiry was **EVER** conducted. We are requesting that his body be exhumed for the required inquiry as there is **NO STATUTE OF LIMITATION** on Murder.

There was an alleged suicide note found near Mr. Brock's body, which was later analyzed by the same expert that analyzed the Zodiac Killer's handwriting and found to be forged. Nationally known and renowned pathologist Dr. Cyril Wecht was consulted to determine common methods of suicide via gunshot, he advised that "Men tend to shoot themselves in the mouth, under the chin or in the temple; women typically tend to shoot themselves in the heart because they want an open casket funeral." He was then asked has he ever dealt with a suicide wherein, a **LEFT-HANDED** man SHOT himself, in the back of the **RIGHT** side of his head. Dr. Wecht emphatically declared "No." Dr. Wecht then catechized to determine the status of Mr. Brock's inquest. It was explained that there was no coroner's inquest performed on Mr. Brock, there was a report, but no inquest. Dr. Wecht said, "that sounds like foul play." Evidence in this case strongly indicated that Mr. Brock was murdered and great efforts are continually being taken to cover it up. We are seeking to restore Mr. Brock's name. He was an admirable, productive member of society. In addition, he was a man who made significant contributions to the populace and his position. We're requesting your direct assistance in the process of involving the U.S. Justice Department to investigate the heinous facts associated with the complicity of the murder and cover-up with the specific purpose of correcting and relabeling Mr. Brock's death certificate to reflect homicide rather than suicide.

Thank you.
